

# RAM TECH

(Designer & manufacturers of Custom Build Equipments & Heavy Engineering Fabricators)

AN ISO 9001 - 2008 CERTIFIED COMPANY  
CERTIFICATE NO: IAS/IND/2218

## TO WHOMSOEVER IT MAY CONCERN

This is certifying that we are the manufacturers of Industrial Process Equipment and Fabrication Services. We have been using Spussist software for Storage vessels since November 2014.

The following are few features that we have found useful.

- Output is as per IS as well as ASME Standards.
- Automatic generation of GA drawing on AutoCAD.
- Automatic generation of BOM.
- Automatic generation of Quote (Customized costing calculations).

This tool saves considerable time of ours and enhances the productivity, thereby enabling us to respond to our customers in time.

The after sale service and software update are also good.

For Ram Tech,

  
(Director)
